

Town and Country Planning Act 1990

NOTIFICATION OF DECISION

Application Type: **Outline Application**

Address to which the proposal relates:

Application No: **21/05471/OUT**

Parcel 5159 Minsmere Road Keynsham Bath And North East Somerset

Description of Proposal:

Outline planning application for 70 homes (Use Class C3); new vehicular and pedestrian access on to Minsmere Road, public open space; tree planting and habitat creation; site drainage and associated infrastructure, with all matters reserved except for access.

Application submitted by: **Taylor Wimpey UK Ltd**

The above development is hereby **PERMITTED** in accordance with the application, plans and drawings submitted by you subject to the condition(s) set out below:

1 Outline Time Limit (Compliance)

The development hereby approved shall be begun either before the expiration of three years from the date of this permission, or before the expiration of two years from the date of approval of the last of the reserved matters to be approved whichever is the latest.

Reason: As required by Section 92 of the Town and Country Planning Act (as amended), and to avoid the accumulation of unimplemented planning permissions.

2 Reserved Matters Time Limit (Compliance)

Application for approval of the reserved matters shall be made to the Local Planning Authority before the expiration of three years from the date of this permission.

Reason: As required by Section 92 of the Town and Country Planning Act 1990 (as amended) and to avoid the accumulation of unimplemented planning permissions.

3 Reserved Matters (Pre-commencement)

Approval of the details of the layout, scale, appearance and landscaping of the site (hereinafter called the reserved matters) shall be obtained from the Local Planning Authority before any development is commenced.

Reason: This is an outline planning permission and these matters have been reserved for the subsequent approval of the Local Planning Authority under the provisions of Section 92 of the Town and Country Planning Act 1990 (as amended) and Parts 1 and 3 of the Development Management Procedure Order 2015.

4 Reserved matters - Parameter Plans (Compliance)

This outline planning permission relates solely to the description of development set out above and in the Application Plans and Documents attached to this planning permission. All reserved matters applications shall accord with the following approved parameter plans forming part of the application except where specific listed conditions in this permission require otherwise:

- o Land Use and Access Parameter Plan - BL-M-01 Revision D
- o Green Infrastructure Parameter Plan - BL-M-02 Revision B
- o Scale Parameter Plan - BL-M-03 Revision B

Bath & North East Somerset Council
(PEOUTZ)

Please read the notes that accompany this decision notice.

For the avoidance of doubt, the Land Use and Access Parameter Plan and Green Infrastructure Parameter Plan do not preclude the incorporation of public space or green and blue infrastructure within the residential development/built development area.

Reason: To ensure that there is sufficient space for green/blue infrastructure and public open space to ensure a high-quality development with sufficient landscaping and good access to green space in accordance with policies NE1, NE2, NE2A, NE3, NE6, D4, CP6 and CP8 of the Core Strategy and Placemaking Plan.

5 Reserved matters - Design Quality (Compliance)

All reserved matters applications shall be accompanied by a Design Statement identifying how they meet the vision and objectives for the site, as set out on pages 38 to 39 the submitted Design and Access Statement prepared by Taylor Wimpey dated July 2022.

Reason: In the interests of the appearance of the development and the character and appearance of the area and to ensure a high quality development in accordance with policies NE1, NE2, NE2A, NE3, NE6, D4, CP6 and CP8 of the Core Strategy and Placemaking Plan.

6 Reserved Matters - Landscape Design Proposals (Compliance)

Any application for the reserved matter of landscaping shall include full details of both hard and soft landscape proposals and programme of implementation. These details shall include, as appropriate:

1. Proposed finished levels or contours
2. Means of enclosure
3. Car parking layouts
4. Other vehicle and pedestrian access and circulation areas
5. Hard surfacing materials
6. Minor artefacts and structures (e.g. outdoor furniture, play equipment, refuse or other storage units, signs, lighting)
7. Proposed and existing functional services above and below ground (eg drainage, power, communication cables, pipelines, etc, indicating lines, manholes, supports etc)
8. Retained historic landscape features and proposals for restoration, where relevant

Soft landscape details shall include:

1. Planting plans
2. Written specifications (including cultivation and other operations associated with plant and grass establishment)
3. Schedules of plants, noting species, planting sizes and proposed numbers / densities

Reason: To ensure the provision of amenity and a satisfactory quality of environment afforded by appropriate landscape design, in accordance with policies D1, D2, D4 and NE2 of the Bath and North East Somerset Placemaking Plan.

7 Reserved Matters - Drainage Strategy (Compliance)

Any application for reserved matters shall be accompanied by a detailed drainage strategy which shall include, inter alia:

1. Electronic copy of the proposed surface water drainage network (in a .mdx format)
2. Written approval given demonstrating that the surface water drainage network will be adopted and maintained by the water company or an acceptable alternative.

The surface water drainage network shall thereafter be installed prior to occupation of any dwellings and in accordance with the details approved as part of the reserved matters.

Reason: To ensure that an appropriate method of surface water drainage is installed and in the interests of flood risk management in accordance with Policy CP5 of the Bath and North East Somerset Core Strategy and Policy SU1 of the Bath and North East Somerset Placemaking Plan.

8 Reserved Matters - Existing and Proposed Levels (Compliance)

Any application for reserved matters shall be accompanied details of the existing and proposed ground levels. These details shall include:

1. A topographical plan of the site including spot levels;
2. A proposed site plan/s including spot levels;
2. Site sections showing existing and proposed ground levels.

The development shall thereafter be undertaken in accordance with the approved details.

Reason: For the avoidance of doubt and to clarify the finished ground levels of the development to accord with policies D1, D2 and NE2 of the Bath and North East Somerset Placemaking Plan.

9 Ecological Mitigation Compensation and Enhancement Plan (Pre-commencement)

Any application for reserved matters shall be accompanied by an Ecological Mitigation, Compensation and Enhancement Plan (EMCEP). The Plan shall detail all habitats and features required to deliver biodiversity net gain, which shall be achieved broadly in accordance with the approved Biodiversity Net Gain Assessment Report (Rev D Tyler Grange dated 8th September 2022), Green Infrastructure Parameter Plan (Dwg no. BL-M-02 - Rev B Stantec dated 11th July 2022) and Landscape Strategy Plan (Dwg no. 10505/P18e Tyler Grange dated July 2022). The EMCEP shall include the following:

1. Full details of proposed ecological mitigation compensation and enhancement measures including habitat retention, creation and enhancement; methods, materials, species compositions and seed mixes, soil requirements; ecological objectives for habitats, species and features
2. Retention of pond 1
3. Proposed additional features including bat and bird boxes, 50% of dwellings shall incorporate an integrated bat and/or bird box.
4. Proposed wildlife routes and hedgehog gaps in fencing to ensure permeability for wildlife through and around the site including with in residential areas
5. Provision of the specified habitats and minimum habitat extents committed to in the approved Ecological Assessment (Tyler Grange, November 2021) and Biodiversity Net Gain Assessment Report (Rev D). This shall include SUDs features that hold water year-round and are planted with aquatic & marginal vegetation.
6. Proposed specifications, numbers, positions / boundaries of all habitats and features must be shown on a plan

All measures must be fully incorporated into the scheme and landscape proposals and shown on all relevant plans and drawings as applicable. All works and ecological measures within EMCEP shall be implemented according to approved details, and all ecological features and habitats shall be retained and maintained thereafter for the purpose of providing benefit for wildlife.

Reason: To prevent ecological harm and to provide biodiversity net gain in accordance with policies NE3, NE5 and D5e of the Bath and North East Somerset Placemaking Plan. The above condition is required to be pre-commencement as it involves approval of measures to ensure that biodiversity net gain is incorporated into the design of the proposals at the reserved matters stage.

10 Construction Management Plan (Pre-commencement)

No development shall commence until a Construction Management Plan has been submitted to and approved in writing by the Local Planning Authority. This shall include details of the following:

1. Deliveries (including storage arrangements and timings);
2. Contractor parking;
3. Traffic management;
4. Working hours;
5. Site opening times;
6. Wheel wash facilities;

7. Site compound arrangements;
8. Measures for the control of dust, noise and site lighting
9. Temporary arrangements for householder refuse and recycling collection during construction.

The construction of the development shall thereafter be undertaken in accordance with the approved details.

Reason: To ensure that safe operation of the highway and in the interests of protecting residential amenity in accordance with policies D6 and ST7 of the Bath and North East Somerset Placemaking Plan. This is a pre-commencement condition because any initial construction or demolition works could have a detrimental impact upon highways safety and/or residential amenity.

11 Archaeology Controlled Excavation (Compliance)

No development shall commence, except archaeological investigation work, until the applicant, or their agents or successors in title, has secured the implementation of a programme of archaeological trenching work in accordance with the approved written scheme of investigation (Cotswold Archaeology, Written Scheme of Investigation for an Archaeological Evaluation, CA Project CR0991, February 2022) and geophysical survey (Cotswold Archaeology, Magnetometer Survey, ref. no. J889, December 2021). Thereafter the building works shall incorporate measures necessary to mitigate the loss or destruction of any further archaeological remains.

Reason: The site is within an area of major archaeological interest and the Council will wish to examine and record items of interest discovered in accordance with Policy HE1 of the Bath and North East Somerset Placemaking Plan. This is a condition precedent because archaeological remains and features may be damaged by the initial development works.

12 Archaeology Post Excavation and Publication (Pre-occupation)

No occupation of the development shall commence until the applicant, or their agents or successors in title, has secured the implementation of a programme of post-excavation analysis in accordance with a publication plan which has been submitted to and approved in writing by the Local Planning Authority. The programme of post-excavation analysis shall be carried out by a competent person(s) and completed in accordance with the approved publication plan, or as otherwise agreed in writing with the Local Planning Authority.

Reason: The site has produced significant archaeological findings and the Council will wish to publish or otherwise disseminate the results in accordance with Policy HE1 of the Bath & North East Somerset Placemaking Plan.

13 Contaminated Land - Investigation and Risk Assessment (Pre-commencement)

No development shall commence, except for ground investigations and demolition, required to undertake such investigations, until an investigation and risk assessment of the nature and extent of contamination on site and its findings has been submitted to and approved in writing by the Local Planning Authority. This assessment must be undertaken by a competent person, and shall assess any contamination on the site, whether or not it originates on the site. The assessment must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11' and shall include:

(i) a survey of the extent, scale and nature of contamination;

(ii) an assessment of the potential risks to:

- o human health,
- o property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
- o adjoining land,
- o groundwaters and surface waters,
- o ecological systems,
- o archaeological sites and ancient monuments;

(iii) an appraisal of remedial options, and proposal of the preferred option(s).

Reason: In order to ensure that the land is suitable for the intended uses and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors and in accordance with policy PCS5 of the Bath and North East Somerset Placemaking Plan and chapter 15 of the National Planning Policy Framework. This is a pre-commencement condition because the initial works comprising the development have the potential to uncover harmful contamination.

14 Contaminated Land - Remediation Scheme (Pre-commencement)

No development shall commence, except for ground investigations and demolition required to undertake such investigations, until a detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historical environment, has been submitted to and approved in writing by the Local Planning Authority, unless the findings of the approved investigation and risk assessment has confirmed that a remediation scheme is not required. The scheme shall include:

- (i) all works to be undertaken;
- (ii) proposed remediation objectives and remediation criteria;
- (iii) timetable of works and site management procedures; and,
- (iv) where required, a monitoring and maintenance scheme to monitor the long-term effectiveness of the proposed remediation and a timetable for the submission of reports that demonstrate the effectiveness of the monitoring and maintenance carried out.

The remediation scheme shall ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation.

The approved remediation scheme shall be carried out prior to the commencement of development, other than that required to carry out remediation, or in accordance with the approved timetable of works.

Reason: In order to ensure that the land is suitable for the intended uses and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors and in accordance with policy PCS5 of the Bath and North East Somerset Placemaking Plan and chapter 15 of the National Planning Policy Framework. This is a pre-commencement condition because the initial works comprising the development have the potential to uncover harmful contamination.

15 Contaminated Land - Verification Report (Pre-occupation)

No occupation shall commence until a verification report that demonstrates the effectiveness of the remediation carried out has been submitted to and approved in writing by the Local Planning Authority, unless the findings of the approved investigation and risk assessment has confirmed that a remediation scheme is not required.

Reason: In order to ensure that the land is suitable for the intended uses and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors and in accordance with policy PCS5 of the Bath and North East Somerset Placemaking Plan and chapter 15 of the National Planning Policy Framework.

16 Contaminated Land - Unexpected Contamination (Compliance)

In the event that contamination which was not previously identified is found at any time when carrying out the approved development, it must be reported in writing immediately to the Local Planning Authority. Thereafter an investigation and risk assessment shall be undertaken, and where remediation is necessary, a remediation scheme shall be submitted to and approved in writing by the Local Planning Authority. Following completion of measures identified in the approved remediation

scheme, a verification report (that demonstrates the effectiveness of the remediation carried out) must be submitted to and approved in writing by the Local Planning Authority prior to occupation of the development.

Reason: In order to ensure that the land is suitable for the intended uses and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors and in accordance with policy PCS5 of the Bath and North East Somerset Placemaking Plan and chapter 15 of the National Planning Policy Framework.

17 Construction Environmental Management Plan (Pre-commencement)

No development shall take place (including demolition, ground works, vegetation clearance) until a Construction Environmental Management Plan for Biodiversity (CEMP: Biodiversity) has been submitted to and approved in writing by the local planning authority. These details shall be in accordance with but not limited to the recommendations and proposed mitigation measures described in Section 4 of the approved Ecological Assessment produced by Tyler Grange dated November 2021 including:

- a) findings of update ecological and protected species surveys and assessments as applicable, and proposals for further pre-commencement checks where required.
- b) Practical measures (both physical measures and sensitive working practices) to include the location/boundaries (to be shown on a plan), timing and methodologies of specified works to avoid ecological harm and minimise ecological impacts during construction (may be provided as a set of method statements) for habitats (including Manor Road Community Woodland LNR, the northern treeline, Pond 1 and sensitive removal of Pond 2) and wildlife (including badger, dormouse [if present], hedgehog, nesting birds and amphibians [including toads]).
- c) a plan showing boundaries of fenced exclusion zones for the protection of retained habitats and features (including Manor Road Community Woodland LNR and northern treeline) and ecologically sensitive zones and species, within which zones there shall be no excavations; clearance of vegetation; storage of materials; waste disposal; or vehicle or machine access; with details and specifications to also be provided for proposed fencing, barriers and warning signs, as applicable
- d) The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person
- e) The times and frequency of visits during construction when a professional ecologist needs to be present on site to oversee works
- f) Responsible persons and lines of communication

The approved CEMP shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details.

Reason: To avoid harm to existing and retained habitats and species during site preparation and construction works in accordance with policy NE3 of the Placemaking Plan. The above condition is required to be pre-commencement as it involves approval of measures to ensure protection of wildlife that would be otherwise harmed during site preparation and construction phases.

18 Landscape and Ecological Management Plan (Pre-occupation)

No occupation of the development hereby approved shall take place until full details of a Landscape and Ecological Management Plan (LEMP) has been submitted to and approved in writing by the local planning authority. These details shall be fully in accordance with all previously approved ecological mitigation, compensation, enhancement and biodiversity net gain requirements and shall include:

1. A list of long-term wildlife conservation and landscape design aims and objectives, which, where applicable, shall be specific to named habitats, species and ecological issues of importance. They shall include (but not be limited to): delivery and long-term maintenance of habitats to achieve

Biodiversity Net Gain in accordance with the approved Biodiversity Net Gain Assessment Report (Rev D, Tyler Grange, 8th September 2022).

2. Creation of habitats to a specified condition and / or that achieve specified levels of structural, botanical, and/or invertebrate diversity; provision of habitats suitable for specified species (for example linnet and other bird species); habitats with suitable conditions, connectivity and quality for use by bats as part of connected flight routes;
3. Proposed management prescriptions and operations; locations, timing, frequency, durations; methods; equipment and personnel as required to meet the stated aims and objectives
4. A plan showing the boundary or boundaries of land to which the LEMP applies. All details, locations, boundaries of habitats and management areas shall also be shown on a plan.
5. A list of activities and operations that shall not take place and shall not be permitted within the LEMP Plan area (for example use of herbicides; waste disposal and disposal of arisings; inappropriate maintenance methods; storage of materials; machine or vehicle access)
6. Proposed habitats shall correspond to and meet the minimum standards set out in the Biodiversity Net Gain Assessment Report (Rev D, Tyler Grange, 8th September 2022).
7. Proposed monitoring and reporting scheme, to include a 5 year rolling programme for ongoing review and future remediation strategies for a minimum 30-year period
8. Proposed resourcing; funding sources and legal responsibility.

All required measures shall be incorporated into and compatible with the wider scheme and shown to scale on all relevant plans and drawings including landscape design and planting plans. All works within the scheme shall be carried out and the land managed and maintained and utilised thereafter, in accordance with the approved details and timings.

Reason: To ensure the long term maintenance and management of landscape and ecological features in the interests of providing net gain of biodiversity and mitigating the landscape impacts of the development in accordance with policies NE2, NE2A and NE3 of the Placemaking Plan.

19 Ecology Follow-up Report (Pre-occupation)

No occupation of the final dwelling shall commence until a report produced by a suitably experienced professional ecologist (based on post-construction on-site inspection by the ecologist) confirming and demonstrating, using photographs, adherence to and completion of the approved CEMP: Biodiversity and Ecological Mitigation Compensation and Enhancement Plan for the relevant phase of the development, in accordance with approved details, has been submitted to and approved in writing by the Local Planning Authority.

Reason: To demonstrate compliance with the CEMP: Biodiversity and Ecological Mitigation Compensation and Enhancement Plan, to prevent ecological harm and to provide biodiversity gain in accordance with NPPF and policies NE3, NE5 and D5e of the Bath and North East Somerset Placemaking Plan.

20 External Lighting (Bespoke Trigger)

No new external lighting shall be installed until full details of the proposed lighting design have been submitted to and approved in writing by the Local Planning Authority. These details shall be in accordance with but not limited to the approved Lighting Strategy Rev PO8 dated 14th July 2022 and Horizontal Illuminance Lux Plan (Dwg No. 2315-DFL-ELG-XX-CA-EO-13001 P06) dated 6th July 2022 both produced by DFL and shall include:

1. Lamp models and manufacturer's specifications, positions, numbers and heights, with details also to be shown on a plan.
2. Predicted lux levels and light spill modelled on both the horizontal and vertical planes using a maintenance factor of 1 (to correspond with day 1 of operation). This must demonstrate that the proposal will not result in light spill above 0.5 lux onto any retained horseshoe bat habitat. The lighting strategy must ensure that all commuting corridors remain below 0.5 lux to enable horseshoe bats to continue to move across the site.

3. Measures to limit use of lights when not required, to prevent upward light spill and to prevent light spill onto nearby vegetation and adjacent land, and to avoid harm to bat activity and other wildlife.

The lighting shall be installed maintained and operated thereafter in accordance with the approved Details

Reason: To avoid harm to bats and wildlife in accordance with policies NE3 and D8 of the Bath and North East Somerset Placemaking Plan.

21 Arboricultural Method Statement and Tree Protection Plan (Pre-commencement)

No development shall commence until a Detailed Arboricultural Method Statement with Tree Protection Plan following the recommendations contained within BS 5837:2012 has been submitted to and approved in writing by the Local Planning Authority. The arboricultural method statement shall include details of the following:

1. A programme of works to include details of supervision and monitoring by an Arboricultural Consultant and the provision of site visit records and certificates of completion to the local planning authority;
2. Measures to control potentially harmful operations such as site preparation (including demolition, clearance, earthworks and level changes), the storage, handling, mixing or burning of materials on the site and the movement of people and machinery throughout the site;
3. The location of any site office, temporary services and welfare facilities;
4. The location of any service runs or soakaway locations;
5. A scaled Tree Protection Plan showing the location of all retained trees and tree protection measures.

No development or other operations shall thereafter take place except in accordance with the approved details.

Reason: To ensure that trees to be retained are not adversely affected by the development proposals in accordance with Policy NE6 of the Bath and North East Somerset Placemaking Plan. This is a condition precedent because the works comprising the development have the potential to harm retained trees. Therefore these details need to be agreed before work commences.

22 Compliance with Arboricultural Method Statement (Compliance)

The approved development shall be carried out in accordance with the approved Arboricultural Method Statement and Tree Protection Plan. A signed compliance statement from the appointed Arboriculturalist shall be submitted and approved in writing by the Local Planning Authority on completion of the works.

Reason: To ensure that trees to be retained are not adversely affected by the development proposals in accordance with Policy NE6 of the Bath and North East Somerset Placemaking Plan. To ensure that the approved method statement is complied with for the duration of the development.

23 Air Quality (Pre-commencement)

No development shall commence until a detailed air quality assessment of the proposed development has been submitted to and approved in writing by the Local Planning Authority. Any required mitigation measures shall be installed/completed prior to the occupation of any dwellings.

Reason: To protect the amenities of the occupants of the development and adjacent residential properties in accordance with policy PCS3 of the Bath and North East Somerset Placemaking Plan.

24 Sample Panel - Materials (Bespoke Trigger)

No construction of the external walls of the development shall commence until a sample panel of all external walling and roofing materials to be used has been erected on site, approved in writing by the Local Planning Authority, and kept on site for reference until the development is completed. The development shall be undertaken in accordance with the approved details.

Reason: In the interests of the appearance of the development and the surrounding area in accordance with policies D1, D2, D3 and D5 of the Bath and North East Somerset Placemaking Plan and policy CP6 of the Bath and North East Somerset Core Strategy.

25 Implementation of Landscaping Scheme (Bespoke Trigger)

All hard and soft landscape works shall be carried out in accordance with the approved details. The works shall be carried out prior to the occupation of any part of the development or in accordance with the programme of implementation agreed in writing with the Local Planning Authority.

Any trees or plants indicated on the approved scheme which, within a period of 10 years from the date of the development being completed, die, are removed or become seriously damaged or diseased shall be replaced during the current or first available planting season with other trees or plants of species, size and number as originally approved unless the Local Planning Authority gives its written consent to any variation. All hard and soft landscape works shall be retained in accordance with the approved details for the lifetime of the development.

Reason: To ensure that the landscape works are implemented and maintained to ensure the continued provision of amenity and environmental quality in accordance with policies D1, D2 and NE2 of the Bath and North East Somerset Placemaking Plan.

26 Dwelling Access (Compliance)

Each dwelling shall not be occupied until it is served by a properly bound and compacted footpath and carriageway to at least base course level between the dwelling and the existing adopted highway.

Reason: To ensure that the development is served by an adequate means of access in accordance with policy ST7 of the Bath and North East Somerset Placemaking Plan.

27 Water Efficiency (Compliance)

The approved dwellings shall be constructed to meet the national optional Building Regulations requirement for water efficiency of 110 litres per person per day.

Reason: In the interests of water efficiency in accordance with Policy SCR5 of the Placemaking Plan.

28 Provision for detailed design for SUDS (Pre-commencement)

Development shall not begin until a surface water drainage scheme for the site, in accordance with the agreed Flood Risk Assessment (FRA) and based on sustainable drainage principles and an assessment of the hydrological and hydro-geological context of the development, has been submitted to and approved in writing by the Local Planning Authority. The scheme shall include, but not limited to:

1. Detailed drainage plan showing the location of the proposed SUDs and drainage network;
2. Details of how the scheme shall be maintained and managed after completion;
3. Details of how the hierarchy approach has been provided through a range of SUDs techniques in accordance with best practice and NPPF including above ground storage utilising open space where technically possible;
4. Demonstration of how the development has accommodated surface water drainage techniques as part of the layout;
5. Detailed drainage calculations for all rainfall events up to and including the 1 in 100-year event plus 30% climate change to demonstrate that all SUDs features, and the drainage network can cater for the critical storm event for its lifetime; and
6. The submission of evidence relating to accepted outfalls from the site, particularly from any third-party network owners.
7. A programme of implementation

The scheme shall subsequently be implemented in accordance with the approved details and programme of implementation before the development is completed.

Reason: To ensure that the development is served by an appropriate system sustainable urban drainage in accordance with policy SU1 of the Placemaking Plan and policy CP5 of the Core Strategy.

29 Garages (Compliance)

Any garages approved as part of the development shall be retained for the garaging of private motor vehicles associated with the dwelling and ancillary domestic storage and for no other purpose.

Reason: To ensure adequate off-street parking provision is retained in accordance with Policy ST7 of the Bath and North East Somerset Placemaking Plan.

30 Plans List (Compliance)

The development/works hereby permitted shall only be implemented in accordance with the plans as set out in the plans list below.

Reason: To define the terms and extent of the permission.

PLANS LIST:

BL-M-01 Revision D Land Use and Access Parameter Plan -
BL-M-02 Revision B Green Infrastructure Parameter Plan
BL-M-03 Revision B Scale Parameter Plan
BL-M-07 Site Boundary Plan

Permit/Consent Decision Making Statement

In determining this application the Local Planning Authority considers it has complied with the aims of paragraph 38 of the National Planning Policy Framework.

Condition Categories

The heading of each condition gives an indication of the type of condition and what is required by it. There are 4 broad categories:

Compliance - The condition specifies matters to which you must comply. These conditions do not require the submission of additional details and do not need to be discharged.

Pre-commencement - The condition requires the submission and approval of further information, drawings or details before any work begins on the approved development. The condition will list any specific works which are exempted from this restriction, e.g. ground investigations, remediation works, etc.

Pre-occupation - The condition requires the submission and approval of further information, drawings or details before occupation of all or part of the approved development.

Bespoke Trigger - The condition contains a bespoke trigger which requires the submission and approval of further information, drawings or details before a specific action occurs.

Please note all conditions should be read fully as these headings are intended as a guide only.

Where approval of further information is required you will need to submit an application to Discharge Conditions and pay the relevant fee via the Planning Portal at www.planningportal.co.uk or post to Planning Services, Lewis House, Manvers Street, Bath, BA1 1JG.

INFORMATIVES

Prior to any works taking place, please contact PROW Inspector Cheryl Hannan on 01225 477623 to arrange a site visit to discuss the line of the path, proposed surfacing and the crossing of the footpath by the estate road.

There must be no decrease in the width of the footpath and no change to the gradient of the footpath as a result of the proposal. The footpath must join up in a suitable and acceptable manner with the adjoining sections of footpath off site, with no change of surface level when exiting the site.

3. The Design and Access Statement mentions the footpath in several places and comments on Page 40: "The existing Public Right of Way across the site is set within a generous green corridor through the residential development." The Illustrative Masterplan (247129103__REV D) shows the main road bisecting public footpath BA27/30. Where a proposed road crosses a public footpath, there must be a demarcation of the footpath on the ground.

4. A temporary path closure may be required to facilitate development. Full details of the process involved can be found on the Council's website at: <https://www.bathnes.gov.uk/services/streets-and-highway-maintenance/publicrights-way/public-path-orders/temporary-path>

Responding to Climate Change (Informative):

The council is committed to responding to climate change. You are advised to consider sustainable construction when undertaking the approved development and consider using measures aimed at minimising carbon emissions and impacts on climate change.

Community Infrastructure Levy - General Note for all Development

You are advised that as of 6 April 2015, the Bath & North East Somerset Community Infrastructure Levy (CIL) Charging Schedule came into effect. CIL may apply to new developments granted by way of planning permission as well as by general consent (permitted development) and may apply to change of use permissions and certain extensions. **Before** commencing any development on site you should ensure you are familiar with the CIL process. If the development approved by this permission is CIL liable there are requirements to assume liability and notify the Council **before any development commences**.

Do not commence development until you been notified in writing by the Council that you have complied with CIL; failure to comply with the regulations can result in surcharges, interest and additional payments being added and will result in the forfeiture of any instalment payment periods and other reliefs which may have been granted.

Community Infrastructure Levy - Exemptions and Reliefs Claims

The CIL regulations are non-discretionary in respect of exemption claims. If you are intending to claim a relief or exemption from CIL (such as a "self-build relief") it is important that you understand and follow the correct procedure **before** commencing **any** development on site. You must apply for any relief and have it approved in writing by the Council then notify the Council of the intended start date **before** you start work on site. Once development has commenced you will be unable to claim any reliefs retrospectively and CIL will become payable in full along with any surcharges and mandatory interest charges. If you commence development after making an exemption or relief claim but before the claim is approved, the claim will be forfeited and cannot be reinstated.

Full details about the CIL Charge including, amount and process for payment will be sent out in a CIL Liability Notice which you will receive shortly. Further details are available here: www.bathnes.gov.uk/cil. If you have any queries about CIL please email cil@BATHNES.GOV.UK

This permission is accompanied by an agreement under Section 106 of the Town and Country Planning Act 1990.

Date of Decision: 19th May 2023

Simon de Beer

Head of Planning

IMPORTANT NOTE - The above decision refers to outline Planning Permission only and does not grant or imply Listed Building Consent, Advertisement Consent, Building Regulation or other consents under any other legislation.

APPEALS TO THE FIRST SECRETARY OF STATE

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice (8 weeks for Advertisement appeals).
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://acp.planninginspectorate.gov.uk>.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

PURCHASE NOTICES

- If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.
- In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part V1 of the Town and Country Planning Act 1990.

COMPENSATION

- In certain circumstances compensation may be claimed from the local planning authority if permission or consent is refused or granted subject to conditions by the First Secretary of State on appeal or on reference of the application to him.
- These circumstances are set out in Section 114 and related provisions of the Town and Country Planning Act 1990 and Section 27 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

Date registered: 14th December 2021

Applicant: Taylor Wimpey UK Ltd

Dear Sir/Madam

With reference to the above application for outline planning permission, please find enclosed a copy of the Local Planning Authority's notification of decision. For further information about the decision please refer to the case officer's report for your application on our website labelled as 'Committee Report' in the Documents tab. This can be accessed using the link http://www.bathnes.gov.uk/webforms/planning/details.html?refval=21/05471/OUT#details_Section.

Please also refer to the committee minutes for the Development Management Committee on the Minutes, agendas and reports pages of our website - <http://democracy.bathnes.gov.uk/meetings>. We aim to publish the committee minutes within 7 working days of the meeting.

Your attention is drawn to the notes that accompany the decision notice which give guidance on matters such as making appeals, serving purchase notices and compensation issues. However, if you require further assistance on any of the above areas, please contact Planning Services.
