Keeping you up to date with all the latest neighbourhood news

Exploring the area

Tudor Gate is situated on the rural edge of the historic town of Stratford-upon-Avon. Surrounded by vast areas of green open space, there are plenty of walking and cycling paths for you to enjoy and explore the area.

For those who like to keep active, Stratford-upon-Avon Golf Club is just over a mile away from the development, whilst Stratford Football Club is only two miles away.

There is also plenty to see and do in the town centre with a wide range of independent and high street shops, fashionable

wine bars, gastro pubs and the famous Royal Shakespeare Theatre.

For parents with young children, you will appreciate the close proximity to a number of well-regarded local state and independent schools for children of all ages.

A little further afield, you will find the historic town of Warwick, where you can take a visit to the tourist attraction, Warwick Castle. Alternatively, you could drive to the town of Royal Leamington Spa, where you can take a walk around the stunning Jephson Gardens.

Family welcomed to Tudor Gate

A family has found everything they were looking for with their new home at our Tudor Gate development.

The family moved from a three bedroom semi detached house into their three bedroom detached Keydale house in December 2020 and are settling into their new surroundings.

Discussing their decision to move, they said: "With two adult children, I needed a slightly bigger home with low to no maintenance needed and Tudor Gate provided just that.

Location was a huge factor when I started looking at new homes so when I saw that Tudor Gate had homes for sale I knew I had to have a look around."

Commenting on why they chose the Keydale house type, they said: "The layout of the Keydale was very attractive to me. The kitchen/diner will be a great space to entertain my friends and family in the future and I really wanted a detached home with a garage which is exactly what I found."

"The children and I cannot wait to see what the future holds for us at Tudor Gate and we are all so pleased with the decision to move here."

How we have supported the local community

At Taylor Wimpey, we are committed to supporting the local communities in which we build and since the launch of Tudor Gate, we have helped a number local causes and schools.

We've also supported some of the schools close to the development. Most recently, we helped Bridgetown Primary School expand its interactive learning resources with the help of a generous donation towards the purchase of visualisers for each year group.

And in March 2020, we supported Alveston C of E Primary School's World Book Day celebrations with the donation of a £150 National Book Token, which meant they were able to add some more books to their library thanks to the donation.

At the end of last year, we helped Stratford upon Avon Foodbank continue its vital support to the local community with a £500 donation of food. The donation contained tinned and long life items and will support the food banks aim to relieve poverty in Stratford-upon-Avon and its surrounding areas by providing emergency food supplies to those most in need.

Children's play area now open

We are delighted to announce that the children's play area at Tudor Gate is now open for residents and the local community to use.

Situated between the two phases of the development, the play area features two areas made up of a variety of play equipment including swings, trails and monkey bars and is surrounded by stunning views of the open countryside.
