Lifestyle

Welcome to a home where all the fixtures and fittings are brand new and unused. Where you won't need to worry about DIY and home improvements, so you can spend more time with your family and friends doing all the things you really enjoy.

From the day you move in, you'll love the fact that everything in your new home is clean and untouched. Your new home will be decorated in neutral colours, so you'll get a blank canvas to stamp your own style and personality on from day one.

If you've reserved early enough in the build process, you'll get to choose from a range of fixtures, fittings and floor coverings from the options range that will be installed in your new home before you move in. Which means as soon as you unpack you can start using your dream kitchen or bathroom.

And while it's these finishing touches that make a house a home, you can also be sure that we've constructed your home to energy-efficient, modern building standards, so you can enjoy living in a safe and secure environment.

We use traditional construction techniques incorporating modern materials in our homes. Environmentally friendly features like efficient heating systems, double glazed windows, high levels of wall and loft insulation and well-designed ventilation systems will keep your home cosy and warm and effortlessly help you save energy and money.

Just before you move in, we'll explain how your new home works from top to bottom. And once you've moved in, our team will visit you a couple more times to check how you're settling in and help out with any issues you may have. And all our new homes come with a two-year Taylor Wimpey warranty and a 10-year NHBC warranty, giving you absolute peace of mind right from day one.

The moment you enter a Taylor Wimpey home you'll see that we design and build our homes and communities around you. But we build more than just new homes - in 2016 we donated and fundraised £875k for registered Charities, directly employed on average 4,697 people and provided opportunities for a further 12,390 jobs in the UK across our developments. Taylor Wimpey also contributed £363 million to communities across the UK via our planning agreements in 2016. This included providing new roads and improved public transport, schools, nurseries, health centres and shops. Which means you can trust us to not only build stylish homes but to invest in the things that make you and your family happy.

Photography shown is indicative of typical Taylor Wimpey homes and may include optional upgrades at an additional cost.

Building a new community

Cherry Orchard Primary School, located in Castle Hill, opened in September 2017.

Castle Hill will comprise 1,500 homes set around new public open space, a neighbourhood centre, a two-form primary school and community facilities.

The River Thames will be opened up with new promenade walks allowing easy access to the waterfront.

The Ebbsfleet Garden City project is envisaged to deliver more than 15,000 new homes.

With a new business park in the area, it is estimated more than 30,000 new jobs are due to be created in 45,000m² of commercial space.

To lower emissions and to decrease the carbon footprint on site, the Fastrack bus is available to link you to various destinations.

“Trust Taylor Wimpey to not only build stylish homes but to invest in the things that make you and your family happy. We know that there is no better recommendation than one that comes from the people who actually live in our new homes.”

Of course, there are plenty of other reasons to choose a Taylor Wimpey home such as a range of schemes to help you move, the peace of mind of a 10-year NHBC warranty, excellent customer care, reduced energy costs and low maintenance.
