- Park & Ride

Travel Connections

Dargavel Village enjoys an extensive network of new footpaths to link it to the existing community in Bishopton. Travel around the wider area is easy with the M8 motorway junction, as well as the park and ride facilities at Bishopton Train Station.

Community

The masterplan has seen the creation of two primary schools to serve the families living in the development. You'll also find a range of local amenities on your doorstep including a supermarket, dentist and café.

Development Design

This community has been thoughtfully designed to protect the sites natural habitat. The creation of a community woodland park will be home to a variety of wildlife. Residents will benefit from footpaths and cycle networks and the kids will be spoilt for choice with a selection of play parks in and around the development.
